

Freight wagon Omm 65 / F-uz 121

Names in RW:

**vR Ommi 65 Gravel, vR Ommi 65 Coal, vR Ommi 65 Sand, vR Ommi 65 Gravel 1
vR Ommi 65**

Freight wagon which started service in 1962 / 63; was build in small numbers for the DB to transport moisture-resistant bulk freight. The wagons retired from service in 1975.

All wagons use an interactive loading function which could be used f. ex. in Hagen-Kabel and all wagons use dynamic numbers and a special plate at the end of the train which is used at the DB.
